SOFTNETA QUALITY POLICY

To be a Trusted Technology Partner and make Universal Access to Medical Imaging

- To create global scale solution, having functionality with 3rd party integrations.
- To increase number of national E-Health systems within our global scale solution.
- To create value added service on top of healthcare imaging and diagnostics.
- To ensure unique position for the opportunity of E-Health and AI.
- To increase widening access to medical imaging from anywhere and from any device by different groups: patients, clinicians, insurance, etc.

Main Softneta Value is Respect
Respect to clients and Respect between Employers

Implementing quality management system conforming to ISO 13485 standard, we take care of its effectiveness, ensure compliance with legal and other requirements. We are flexible due to the context of constantly changing environment always evaluating the achievements while reviewing policies and objectives. Our workers are participating in quality management processes. They are constantly informed about the organization's intentions.
