## Notes on the user's manual

#### Purpose and availability of documentation

This user's manual describes the installation procedure of MedDream PACS Lite.

Correct installation of the system is imperative for its safe and successful functioning. You should therefore ensure that you are thoroughly familiar with the instructions before starting the installation procedure.

The installation instructions and other documentation enclosed with MedDream PACS Lite should be kept accessible to users at all times to ensure that the information required for the use of MedDream PACS Lite is readily available.

MedDream PACS Lite is not intended to replace skilled and qualified medical professional. The software should only be used by people who have been trained and is acquainted with its functions, capabilities and limitations.

Users must be aware that the quality, accuracy and correctness of the output data displayed on the screen, printed or sent from MedDream PACS Lite depends on the quality, accuracy and correctness of the input data, the user's interface with the data, the quality, calibration and other parameters of printer or monitoring device.

MedDream PACS Lite has been tested extensively, however, it is possible that errors may remain/emerge in the software. Users must be aware of the potential for errors and in case of an error or for other assistance, please contact Softneta UAB Customer support:

write an e-mail <u>info@softneta.com</u>

#### **Questions and comments**

If you have any questions or comments regarding this user's manual, please contact Softneta UAB Customer support.

#### Explanation of symbols used

The symbols used in this daily workflow refer to important safety information which warn against possible health risks or fatal injuries and contain useful notes. Whenever you see these symbols, read the accompanying information carefully and observe all safety notes and information in the user manual, daily workflow and on the device labels.

#### WARNING

Indicates a hazardous situation which may result in a fatal or serious bodily injury if the appropriate safety precautions are not heeded.

#### CAUTION

Indicates a hazardous situation which may result in a minor injury if the appropriate safety precautions are not heeded.

#### CAUTION – PROPERTY DAMAGE

Indicates possible device damage if the appropriate safety precautions are not heeded.

Information, hints and advice for a better understanding of the instructions to be observed in the operation of the instrument.
